

Your Trusted Fire Safety Provider

As a full-service fire protection company, Abadi Jaya promises to innovate and expand on our safety solutions, to better serve more industries that require our expertise. Our services and experienced personnel are guaranteed to offer the maximum level of safety to our customers.

Providing Fire Protection Solutions Since 2009

Established in 2009, Kejuruteraan Abadi Jaya Sdn Bhd was formed to serve as a total solution provider that specialises in firefighting systems. With a comprehensive range of firefighting products and solutions, we have worked with various businesses across multiple industries, completed over hundreds of projects and served a variety of customers such as end users, facility managers, property managers and owners.

Industry-Leading Fire Fighting Systems

At Abadi Jaya, we are focused on providing fire safety solutions by investing in and utilising the latest firefighting systems to safeguard our customers. The technology and equipment are held up to stringent fire safety requirements to deliver excellent industrial safety services across office towers, hospitals, hotels, factories, shopping malls and more.

Gold-Standard Employees

We strive to provide our customers with a variety of expert services and systems that ensure the job is always done right the first time. Our team of experienced fire service technicians and specialists are trained in installing, repairing, testing and maintaining all fire protection systems and ensuring all work adheres to Malaysian Fire Codes and fire standards.

Why Work With Us

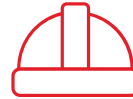

Comprehensive Solutions and Services

Everything in one place.

At Abadi Jaya, we take pride in being a total solution provider for firefighting systems. We offer a range of fire protection solutions and services to meet the diverse needs of our clients and the market. We also invest in training programmes to keep our technicians updated on the latest developments and standards in the industry.

Professional Technicians

Technical expertise.

Our CIDB Green Card certified fire service technicians and specialists are committed to providing complete design, installation, and maintenance services. We use our expertise to provide our clients with quality solutions to meet all aspects of fire protection during our work.

Local Compliance

- Ministry of Finance
- Fire Protection Board
- Fire and Rescue Malaysia
- CIDB Malaysia

Quality driven.

We are registered with Malaysian organisations such as the Ministry of Finance, Malaysian Fire Protection Association, Fire and Rescue Department of Malaysia and Construction Industry Development Board to perform our work to the highest standards. We are currently implementing ISO 9001:2015 requirements to ensure our practices are in accordance with international quality standards.

Professional Technicians

Productivity and efficiency.

We continuously invest in the latest firefighting systems for our technicians to safely and accurately address our clients' fire safety needs. With our fire protection machinery, we can offer efficient and cost-effective solutions without compromising the safety of our clients and technicians.

Core Values

At Abadi Jaya, we believe that living by strong values is what makes a good business. Everyone—from employees to managers—are familiar with our core values and use them to guide our actions and decisions.

Quality

Complying with all legal and regulatory requirements in Malaysia is of utmost importance to us. Our employees pay special attention to ensuring our services and installations are safe and easy to use.

Responsible Communication

We communicate openly and honestly. Our statements are truthful, respectful, and compliant at all times with legal and ethical standards.

Performance Driven

At Abadi Jaya, we are committed to personal accountability, collaboration, innovation and teamwork. We work hard to deliver premium value to our clients and our shareholders.

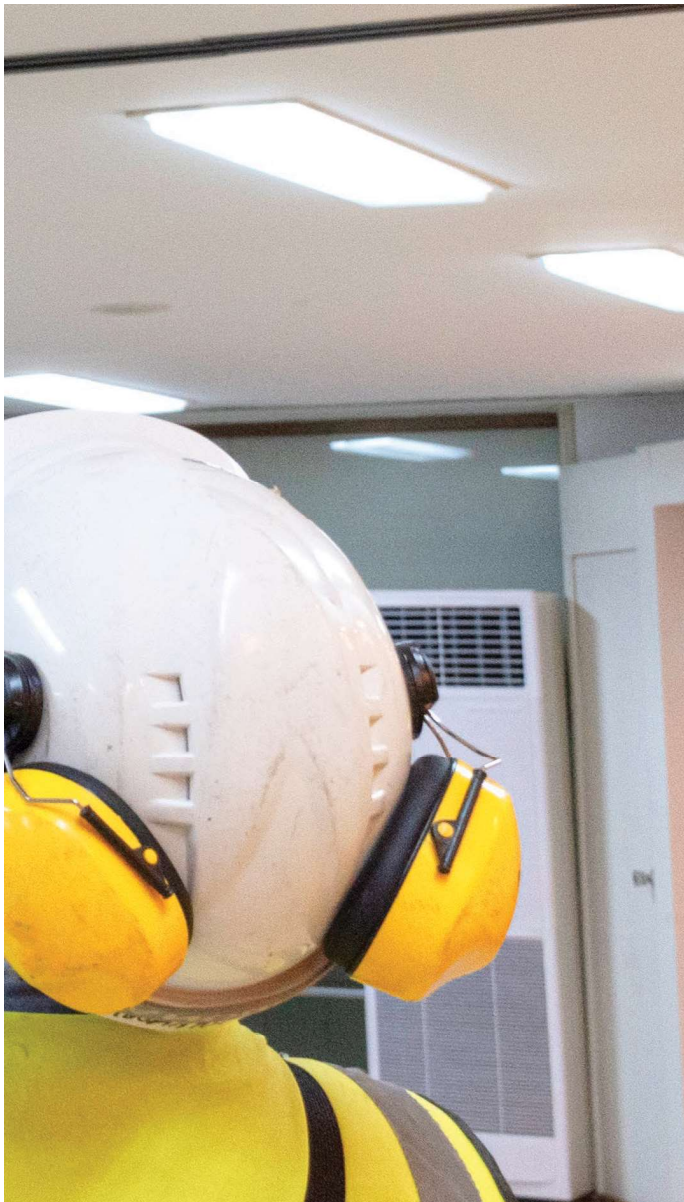

Operational Excellence

We do it right the first time with the highest standards of quality. Our staff members are committed to pursuing a culture of continuous innovation, knowledge expansion, and improvement.

Safety Above All

Providing a safe working environment is our highest priority. We promise to ensure the safety of our employees, contractors, customers and families at work and on the road.
